

Dash and Dot: Adventures in Robotics

Coding is the modern day superpower. It helps us think differently, understand how things around us work, and gives us the power to create and succeed in a digital world. Children learn through play. Combining a real robot with coding fires up a child's imagination, inspires dreams, and builds confidence.

During this one week summer program, students will bring STEM to life with Dash & Dot robots, hands-on learning tools. Dash and Dot will guide kids through the world of coding and robotics, turning ideas into adventures. With Dash & Dot robotics, coding becomes the language of play. Their curiosity and confidence will ignite as they are provided with a fun ways of learning the essential skills of collaboration, communication, and digital literacy.

Summer Program Information

Session 1: June 13-17

Session 2: June 20-24

8:00 - 11:30 am

\$175 per session

Open to all registered incoming 3-5 graders

Limited to 15 students per session

Registration: <http://goo.gl/forms/A2jd3PXhvk>

Location: All Saints Catholic School

1759 Indian Creek Parkway, Jupiter, FL 33458
